Wiring device system specific for installations in round and square boxes, characterized by an elegant appearance and classic shapes. The plates, realized in technopolymer in seven colors and in different modularities, from 2 up to 2+2+2+2+2 gang, are installable indifferently in horizontal or in vertical position. The range, developed around a core of monobloc devices, is available in two colors: white and ivory, in glossy finish. Expandable thanks to the Chorus modular devices.

Colour	White	Material	Technopolymer
Finishing	Glossy	Fixing	With clutches/Screws
Description	RJ45	Use category	5e
Cables	FTP	Connection	Toolless
Number pairs	4	Glow wire test	850 °C
Category	Data socket	Thermo-pressure with ball	125 °C
Standard	EN 50173
